AMERICA FOR AMERICANS

McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned
in effigy in the English city of
Sheffield, but in 1901 William
McKinley was killed and killed in London
by a bullet. He is the author of a Free-Trade
Tariff Bill. These are eminent facts.

There are thirty-five Republican
papers in Kentucky, and with a single
exception every one of them has in-
dorsed Colonel WILLIAM O. BRADLEY for
Governor.

War doesn't break. Men rise up to
the dignity of the occasion and tell his
readers what a splendid financial record
his party is making—both at Frankfort
and at Washington?

Hit, here, Brother Marks! PETER F.
SILK, proprietor of the Cincinnati Ma-
chinery Company, a life-long Democrat,
has deserted the ranks of that party and
joined the Helms Circle.

The McKinley Tariff brought no har-
shness to any workmen nor to anybody
else in the United States. There is not
a single class in the country today
which does not feel the beneficial effect
of that instrument of robbery known as
the Gorman Bill.

It is estimated that it would cost the
Government \$100,000,000 to initiate Gov-
ernment management of railroads, by tak-
ing possession of a line from Cincinnati to
San Francisco. Show that nothing;
Colonel SAM SEARIGHT STAIRS will
furnish the scale.

UNDER the GORMAN Tariff manu-
facturers are given free food, but the
poor laborer is given starvation wages.
These are the New Year's gifts of the
dishonest old Democracy: benefits to
the rich corporations, but conditions of
want and misery to the wage earner.

Town that goes off to the next
town to trade will be poor, and that
Nation that goes off to another Nation to
trade will be poor. The selling Nation
will have our money and the buying
Nation will have the empty boxes. It is
good policy to keep the money home and
make the goods home.

THE interest on the two issues of
bonds of \$50,000,000 each is now appear-
ing in the interest account of the
Government, which looks up for the
fiscal year to date to \$21,038,883.12, as
against about \$20,000,000 for the corre-
sponding period for the last fiscal year.
The two issues increase the interest
charges annually by \$500,000.

Are cheap things good for anybody?
Yes, apparently, for the man who wants
to buy, but certainly not for the man
who wants to sell, or yet for the man
whose labor is a factor in producing the
thing sold. Since everything is produced
by labor, no cheapening system can
benefit it, and, incidentally, labor being
a consumer, all of those activities with
which it has business relations suffer to
gether under the reign of cheapness.

It is a noteworthy fact that the ex-
port of gold has kept pace with the
debit in our exports, and that the net
amount of gold exported is practically
equal to the balance of trade against us.
This is a simple process of trade. No
gift of prophecy was needed to foretell
this result. History is simply repeating
itself. We have had the same experience
before. During the years from 1816 to
1860 the balance of trade against us was
\$420,000,000, and our exports of gold
\$430,000,000. The then recently dis-
covered gold mines in California enabled
us to keep up this losing transaction for
years. At present there is nothing to
protect us from such folly.

MARTIAL LAW.

Hawaiian Rebels Likely to Lose Their Lives.

HONOLULU, Jan. 10.—Via Auckland, N. Z., Feb. 1.—The clearing here proved a fiasco. After the first engagement the rebels scattered. GREENHUT ON THE STAND.

A Sharp Attack Is Made in the Whisky Trust

CHICAGO, Feb. 2.—Proceedings in the Whisky trust litigation in the United States court opened with a promise of a sharp battle Saturday. Greenhut took the initiative. He is evidently intended to find what foundation there is for rumors that the whisky trust had not been acting in the interest of the property.

President Greenhut was called to the stand as soon as court opened. Mr. Greenhut said he intended to ask a few questions before arguments for the removal of the receivership began.

"Did you deal in any whisky trust stock Monday or Tuesday?" he asked the witness.

"Yes," replied Mr. Greenhut. "Tuesday I bought between 3,000 and 4,000 shares on the New York stock market. I did not sell and have the stock bought then."

Receiver Lawrence, Mr. Greenhut's associate said he neither bought or sold any stock.

Attorney Levy Mayer then began his argument on the motion to set receivership aside. He said that the directors of the trust were interested in the proceedings. Among the directors in attendance were Messrs. Greenhut, Reggs, Hubbard, Treach and Hennessey. Nelson Morris was absent and represented by counsel.

BLOWN OVER.

The Mexico War Issue Passed Away—Guatemala Offers Indemnity for Losses. St. Louis, Feb. 2.—A City of Mexico special to the Globe-Democrat states that Minister Mariscal and President Diaz held another conference Friday on the Guatemala matter, in which the subject of indemnities for Mexico was further discussed. Mr. Mariscal indicated to the correspondent that the amount and general nature of the indemnity due from Guatemala is practically the only question being seriously considered at the present time.

The Tiempo newspaper Saturday says that Guatemala has sent a cablegram to Mexico, in which it accedes to the demand of the republic in every particular, agreeing to pay Mexico full indemnity for all losses incurred in the invasion giving rise to the present unhappy state of affairs, but this is denied. It was hinted at the Palace that there may be a speedy outcome to affairs now pending.

President Diaz will receive officially in the hall of the Ambassadors Saturday Don Antonio Castellanos, the new minister to Mexico from Salvador, whose coming to that republic has an direct bearing on the Guatemalan question.

AN ELECTRIC CONVEYOR.

Chicago Man's Idea of Solving Time in Taking Mail Matter to the Train.

CHICAGO, Feb. 2.—If the city council will permit, a man who has been in the city for the last few years will be tried in the swift transfer of mail from the post office to the Illinois Central station, at Twelfth street, and Park row, one mile distant. Richard B. Sherman, the inventor of the system, proposes to erect an overhead, or trolley, over the street, and run a conveyer, that will carry a seventy-five pound mail pouch from the roof of the post office to the station in five minutes. It now takes twenty-two minutes to transport mail to the station by wagon. The conveyer is similar to the one outside the Transportation building on the Fourth street grounds, except that it is to be operated by electricity, a wire answering to the trolley on a street car system forming the power to the carriage in which a coiled mail pouch. Mr. Sherman has secured the consent of the city engineers to the erection of a temporary overhead road, which consists of four or five wires.

AS A PEACEMAKER.

Breakthrough Prevails a Scrap in the House Between Representatives Maguire and Hall.

WASHINGTON, Feb. 2.—The house was in a state of commotion Saturday in fighting a bill to amend the Pacific fishing bill, which was vetoed by the president. Maguire, of California, had just concluded a brief, but savage assault on the standing of the bill, in charge of the bill, took exception to some of the statements made by the Californian and in a scuffle he heard all over the house, said: "That statement is false." Maguire immediately jumped upon a table and began to yell, but Col. Breckinridge, who was seated next to him, acted as a peacemaker, and kept the two men apart. There is a good deal of feeling over the bill, in opposition to the bill being read twice in their denunciation of the Pacific railroad people.

JOHN RENO DEAD.

He Was the First Train Robber in the West.

COLUMBIA, Ind. Feb. 2.—John Reno is dead. He was a member of the train robbery gang in the United States, who was killed by a bullet from a posse of men, who were hunting for him, in a fight which took place in the city of Reno, Nev., on Saturday morning. He was a member of the gang which was known as the "south-bound J. M. & I." train, was stopped at what is still known as the Rockford station.

The robbers entered at a side door and soon overpowered the expressman, securing packages of money amounting to \$10,000. They took this amount, which was dropped from the car window and left lying on the track, the thieves being unable to carry away the spoils.

A Detroit Doctor Trained by His Wife's Nurse.

DETROIT, Mich., Feb. 2.—Dr. Horace E. Pope, a dentist, with an office and residence on Michigan street, was killed Saturday morning by Wm. Bruns, Mrs. Pope's nurse.

According to the story told by Bruns, he found Dr. Pope sitting on his wife's bed holding a cloth saturated with chloroform over her mouth. When Bruns entered the room the doctor fell at him but missed. The nurse seized a hatchet and buried it in the skull of the man.

Unfavorable relations between Bruns and Mrs. Pope are said to have been the cause of frequent and bitter quarrels between the Pope and the nurse believe this led to the tragedy.
